Re: Water Right Amended Permit No. **G2-27927** (Willison Street Well)

Dear Mr. Graham:

The request for assignment of the above-referenced permit has been processed, and we have changed our records to reflect this assignment. All future correspondence will be sent to you, unless we are otherwise advised. We are including a copy of the Amended Permit for your review. In future correspondence please reference the water right permit number cited above; it will help us to serve you more quickly.

The Department of Ecology is updating metering provisions according to the most recent metering statute, Chapter 173-173 WAC. Please review these provisions located on the back of your water right permit.

After the appeal period, we will move forward with certification of the above-referenced water right. We will review the information and may come out to inspect your project. Once we are confident that all of the terms and provisions of your permit have been met, we will notify you by mail to request the certificate recording fees for the state and county
